- Wonderful service, love Dr. Doris
- Always have great service. Dr. Doris has been my Dr. for years and always answers my questions. She detected that I might have cancer. She refers me to others for help. Therapy saved me from having shoulder surgery years ago. I moved and still drive in to see her. I really trust her and feel very comfortable in all she does for me.
- Dr.Rahman couldn't have been better. What a relief to get such a great Dr. And all the staff were absolutely wonderful. An all around fantastic experience. That's how doctoring and patience handling should be.
